GRACE Science Data System Monthly Report June 2012

Prepared by:
Frank Flechtner GFZ flechtne@gfz-potsdam.de

Contributions by: Srinivas Bettadpur UTCSR srinivas@csr.utexas.edu

Mike Watkins JPL michael.m.watkins@jpl.nasa.gov Gerhard Kruizinga JPL gerhard.kruizinga@jpl.nasa.gov

Approved by:

Byron Tapley UTCSR tapley@csr.utexas.edu

Highlights:

- CSR has generated and delivered RL05 Level-2 products for February 2011 till June 2012, except June 2011 and May 2012 (due to missing accelerometer data).
- JPL has generated and delivered RL05 Level-2 products for February 2011 till April 2012, except June 2011 (due to missing accelerometer data).
- GFZ has generated and delivered RL05 Level-2 products for January till June 2012 (except May 2012 due to missing accelerometer data), February till December 2011 (except June 2011 due to missing accelerometer data) and February till December 2004. Note that due to sparse ground track coverage caused by short-interval repeat orbit patterns some of the new solutions are stabilized by applying a modified version of the regularization method used for previous releases, which is based on Kaula's power law. The stabilized solutions can be identified by the string "GK2-" instead of "G---" in the GFZ GSM-product name. For further details please refer to the "Release Notes for GFZ GRACE Level-2 Products version RL05" which can be downloaded at the archives.
- Still missing Level-2 RL05 products of the three centers (see tables below) will be provided soon. Please refer to the upcoming newsletters.
- The final program of the next GRACE Science Team Meeting (GSTM) combined with the Final Colloquium of the DFG Special Priority Program "Mass Transport and Mass Distribution in System Earth" (17.-19.9.2012) and followed by a Sea Level Workshop on 20 September 2012 (both at GFZ in Potsdam) will be made available likely on August 27. Please visit http://www.gfz-potsdam.de/portal/gfz/Neuestes/Veranstaltungen/Tagungen+und+Konferenzen/2012/GRACE+Meeting.

Satellite Science Relevant Events:

- Operations in Science Mode throughout the month except for the periods highlighted in the L1B Data Processing section below.
- The actual mission status can be monitored at http://www.csr.utexas.edu/grace/operations/mission_status/.
- The GRACE-1 Brouwer mean orbital elements on July 1, 2012 00:00:00 are as follows:

A [m] = 6822363.631 E [-] = 0.001627 $I [^{\circ}] = 89.001627$

• The satellites separation was 174 km on July 2, 2012 with a rate of -1.06 km/d. Therefore, an orbit maneuver was performed on 4 July 2012.

Level-0 raw data dump reception statistics at DLR ground stations Weilheim and Neustrelitz:

GRACE-A Housekeeping: 100.0 % GRACE-B Housekeeping: 100.0 % GRACE-A Science: 100.0 % GRACE-B Science: 100.0 %

Level-1 Data Processing:

- Level-1B Release 02 instrument data have been processed at JPL and archived at GRACE-ISDC and JPL PO.DAAC. Please refer to the statistics below.
- RL02 Notes:
 - o No additional notes! A very smooth month also thanks to the GRACE operations team.
 - o KBR statistics:
 - A) KBR1B product name
 - B) Total arc length with data (hours)
 - C) Number of observations used in residual calculation
 - D) KBR-GPS range residual RMS (cm)
 - E) minimum KBR-GPS range residual (cm)
 - F) maximum KBR-GPS range residual (cm)
 - G) number of continuous segments in the KBR product

Following JPL RL00 (yellow), RL01 (green) and RL02 ("x") L1B products are publicly available. June and July 2002 (red) are not provided due to accelerometer problems. See also comment in the Highlights Section. For several months a significant number of Level-1 data is not available (blue): January and June 2011 (accelerometer data), May 2012 (accelerometer and K-Band data). See also corresponding newsletters.

- The L1B Read software has been updated to accommodate 64-bit machines but the software will also work on 32 bit machines. Please change RELEASE_2008-03-20 to RELEASE_2010-03-31 available at ftp://podaac.jpl.nasa.gov/allData/grace/sw/.
- Level-1B Release 01 generation has stopped with 30 April 2012.
- L1B De-aliasing Products Status (for details see AOD1B Product Description Document):
 - o Release 01: Generation has been stopped June 30, 2007.
 - o Release 03: Generation has been stopped January 31, 2007.
 - o Release 04: Generated until April 30, 2012 and extended to 1976-2000 (see newsletter for December 2008). Generation has been stopped April 30, 2012.
 - o Release 05: Generated for 1 January 2001 till 5 August 2012. Updated documentation and web pages are still under construction.
 - Following AOD1B products are publicly available (yellow: RL01, RL03 and RL04; green: RL01 and RL04, blue: RL04 only, 'x' RL05):

Level-2 Product Generation and Distribution:

Besides historical RL00 till RL04 time-series (see below) the following RL05 L2 products are presently available to the public (green: available, yellow: in preparation; red: missing due to accelerometer data problems):

o **GFZ RL05:** GSM solutions are available for February 2004 until June 2012. Corresponding background GAA, GAB, GAC and GAD products and calibrated errors (GSM*.txt) have been provided too. Details are listed in the GFZ L2 Release Notes.

GFZ RL05	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												

o CSR RL05: GSM solutions along with the GAC and GAD background model files are available for the period January 2004 until June 2012. So far no calibrated errors (GSM*.txt) are available, but will be provided later. Note that CSR has put zeroes in the GSM files in fields that contain the formal errors. Details are listed in the CSR L2 Release Notes.

CSR RL04	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												

 JPL RL05: GSM solutions along with the GAA, GAB, GAC and GAD background model files and calibrated errors (GSM*.txt) are available for the period January 2004 until April 2012. Details are listed in the JPL L2 Release Notes.

JPL RL04	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												

- GFZ and CSR have stopped RL04 processing end of April 2012
- JPL has stopped RL04 processing end of January 2012
- GFZ has stopped RL03 processing (Feb 2003 until Jan 2007 available at the archives. For further details refer to the GFZ RL03 release notes for Level-2 products).
- CSR has stopped RL01 processing. (Apr. 2002 until Dec 2006 available at the archives. For further details refer to the CSR RL01 release notes for Level-2 products).
- JPL has stopped RL02 processing (January 2003 until November 2005 available at the archives. For further details refer to the JPL RL02 release notes for Level-2 products).
- TN05 containing C20 estimates derived from SLR and using GRACE RL04 standards is periodically updated.

Miscellaneous:

- Lecture material from the 2011 summer school of the DFG Special Priority Program "Mass transport and mass distribution in the system Earth" can be downloaded at www.massentransporte.de. Before using, please read the agreements on the cover page.
- The Proceedings of the 2011 Grace Science Team Meeting are online. See the Past Meetings link to the right at http://www.csr.utexas.edu/grace/GSTM/.
- The following acknowledgement shall be added to any new GRACE related publication (paper, poster etc.): Acknowledgement: We would like to thank the German Space Operations Center (GSOC) of the German Aerospace Center (DLR) for providing continuously and nearly 100% of the raw telemetry data of the twin GRACE satellites.
- A list of GRACE related publications which can be sorted by author or date is available at http://www.gfz-potsdam.de/portal/gfz/Struktur/Departments/Department+1/sec12/projects/grace/grace/publications (current status: 936 papers). This list maybe still incomplete. If you are missing a publication please send an e-mail to Frank Flechtner (flechtne@gfz-potsdam.de).
- Science data users are encouraged to submit citations of their own and other works related with GRACE to the bibliography web page implemented at PO.DAAC:

http://podaac.jpl.nasa.gov/grace/bibliography.html.
